

IT Compliance for Cloud Computing

## Why the Global Market is Paying a Premium for This Skill Set

---

Source: McKinsey Global Institute, World Economic Forum, OECD (2026)

Trend Driver | Why It Matters | Global Source

Increasing Cloud Adoption | As more companies move to the cloud, the demand for professionals who can ensure compliance and security is rising, making this skill set highly valuable | McKinsey Global Institute

Stricter Regulatory Requirements | The introduction of new regulations, such as GDPR and CCPA, has created a need for professionals who can navigate complex compliance requirements and ensure their organization is meeting these standards | World Economic Forum

Growing Concerns About Data Security | With the rise of cyberattacks and data breaches, companies are willing to pay a premium for professionals who can ensure the security and compliance of their cloud-based systems | OECD
